CHICAGO PRODUCE MARKET.

CHICAGO, ILL., November 23.—If there had been more business, wheat might have made a more respectable gain today, as there was a distinctly firm tone to the market, owing to the moderate amount of trading, only indifferent results were achieved. A failing off in Northwestern receipts, as compared both with last Saturday and with the corresponding day a year ago—185. 1.679, and 227 cars, respectively—was the leading item of encouragement for the buils.

The export clearances for the week—2.917.000 bushels—although not up to those of last week, nor those of a year ago, were nevertheless considered quite fair in volume. King & Co., of Toledo, issued a report of a comprehensive character, the summary of which showed an average condition of winter wheat in the eight principal States of 85 per cent.

December wheat opened at from 56 1-8 to 85c, and advanced to 56 3-4c, closing at 56 1-4c,—a shade higher than yesterday. Cash wheat steady and without essential change.

Lighter receipts of corn than expected were posted this morning—376 cars—against an estimate of 46. Inspections from store were good, at 237,211 bushels, and presented a very unfavorable comparison with those of the corresponding week last year—1,43,000 bushels—against 189,000 bushels. These conditions helped the market, as did also the strength of wheat.

the market, as did also the strength of wheat.

May corn opened at 29 1-Sc., and sold between 29 1-Sc./20 1-tc., and 29/29 1-Sc., closing at the latter—a shade under yesterday. Cash corn was quiet and steady. Trading was confined to professionals and carriers, and very little of that was done in oats. The range of prices showed 1-16c. Oats closed unchanged from yesterday. Cash oats were unchanged. Provisions.—An advance in hogs and the strength displayed afforded traders a pretext for buying, the effect of which was seen in slight gains early in the session. Later in the day those who had bought turned sellers, and the appreciation in prices disappeared. January pork closed a shade higher than yesterday; January lard and ribs unchanged. Domestic markets were quiet and steady.

We were ridiculed by the majority for presuming to predict declines in stocks when every one clae were advantable their purchase. They paid no heed to the causes that we advanced in support of our ideas, but because we were the only ones to advance them they thought them wrong.
